Create your own colourful eZee Bead shapes which magically stick together with water!

What’s in the box?
eZee Beads  
Bead Storage Tray  
Water Sprayer  
Design Cards

Before you begin
Carefully open the eZee Bead packets and put the colours into the different compartments of the bead storage tray. Remove the lid of the water sprayer and fill it with cold water.

1
Select a design card and slide it into the base of the bead tray with the design facing upwards.

2
Start by pushing the coloured beads onto the pegs of the tray matching the beads to the colours on the card.
Take out the design card and spray enough water to thoroughly wet all the beads.

Allow about 30 minutes to dry then carefully remove your bead design from the tray.

After removing your eZee Bead design, there may be some bead colour left on the tray. This will not interfere with future designs. If you would like to remove these marks, clean the tray with warm water and allow to dry.

Do not place eZee Beads in the mouth.

WARNING! Not suitable for children under 36 months. Choking hazard – small parts. Adult supervision recommended.

Colours and contents may vary from those shown. Please retain this information.
