**BATTERY INFORMATION:** Mr. Bucket requires 3xAA batteries (not supplied). We recommend alkaline batteries for optimum performance.

An adult should install the batteries and take note of the following – open the cover on the base of the unit by using a cross head screwdriver. Insert the batteries making sure the + and – signs on the batteries are aligned with the corresponding + and – markings inside the compartment.

- Do not recharge non-rechargeable batteries.
- Do not mix different types of batteries such as alkaline and rechargeable, or used and new batteries.
- Rechargeable batteries are to be removed from the toy before charging them.
- Rechargeable batteries are only to be charged under adult supervision.
- Only batteries of the same or equivalent type as recommended are to be used.
- Insert batteries in the correct polarity.
- Remove exhausted (used) batteries from the toy.
- Remove batteries from the toy if it is not going to be used for a long period of time.
- Do not short-circuit the supply terminals.
- Batteries should be replaced by an adult.
- Do not attempt to power battery products from the mains supply and do not insert connecting wires into electrical socket outlets.
- Dispose of used batteries at a recycling point. Never dispose of batteries in fire.

**Disposal of old electrical and electronic equipment.** This symbol on the product or its packaging indicates that this product should not be treated as household waste. Instead it should be handed over to the appliance collection point of a recycling centre for electronic and electrical equipment. ---

**Mr. Bucket is the original moving chasing racing action game.**

As Mr. Bucket moves around the floor, can you scoop up all your coloured balls and place them back into Mr. Bucket before he pops them out again?

**NOTE TO PARENTS:**

Mr. Bucket is a battery operated game, which must only be used with the special balls enclosed. DO NOT allow your child to place sand, water, or any objects other than the game balls into Mr. Bucket.

**Contents:**

- Bucket (in 2 push together pieces), nose, handle, 2 hands, 2 arms, 4 shovels, 12 balls, stickers, instruction leaflet

SET UP:
Push the 2 halves of the bucket together and press the nose into place.

Attach the eye stickers and push the arms into the slots on both sides of Mr. Bucket, noting the ‘L’ & ‘R’ marks.

Press a hand onto the end of each arm.

Clip the handle onto the pegs located on the front and back of Mr. Bucket.

Using a crosshead screwdriver, unscrew the cover plate on the base of Mr. Bucket and insert 3 x AA batteries (not supplied) into the battery compartment, making sure to match up the (+) and (−) symbols as shown later in this leaflet.

Mr. Bucket works best on a hard floor in a play area of at least 2x2 metres. Avoid carpeted areas.

Each player chooses a shovel. Scatter all the corresponding coloured balls randomly on the floor within a 1 metre radius of Mr. Bucket.

If playing with less than 4 players, place unused shovels and balls back in the box.

HOW TO PLAY:
When everybody is ready, one player slides the switch underneath Mr. Bucket to the “on” position and places him back on the floor.

Mr. Bucket will start to move, circling around the floor and waving his arms.

Players must immediately try to scoop up a ball that matches the colour of their shovel and drop it into Mr. Bucket.

Players may ONLY pick up their own colour balls and MUST use their shovel NOT their hands.

After a player has dropped their first ball into Mr. Bucket, they must run and scoop another matching ball.

You must hurry as Mr. Bucket will pop balls back out almost as fast as players can drop them in.

Players must keep scooping their matching coloured balls until they have managed to get all three inside.

For games with mixed age players, consider allowing younger children to start the game with one or even two of their coloured balls already inside Mr. Bucket.

WINNING THE GAME:
As soon as a player has managed to get all three of their coloured balls inside Mr. Bucket, they must quickly lift Mr. Bucket by his handle, which stops him from popping out any more balls.

YOU ARE THE WINNER!!
